THE EXHIBITION AREA

After several years of comprehensive modernization, the CCH presents itself as one of the largest and most modern event centers in Europe. It offers comprehensive space for the company exhibition and all imaginable conveniences for an all-round successful DAGA.

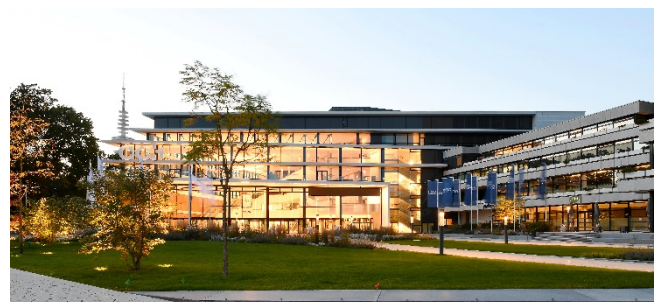

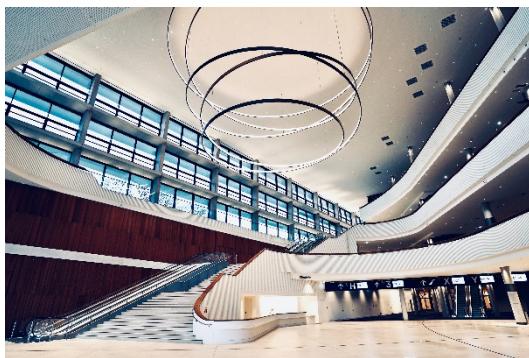

The exhibition will take place in the foyer areas of level X and Y of the Congress Center Hamburg (CCH) and is thus located in the centrally frequented area of the participants, who pass through the foyers on their way before, between and after the sessions. Catering areas will be integrated into both exhibition areas, inviting participants and exhibitors to linger and visit the exhibition stands during the numerous breaks.
